

NOTSA 2017 RPAH

FRIDAY 3rd Nov: Bosch Lecture Theatre, Sydney University

08:00 ONSITE REGISTRATION			
Chair	Curthoys		
8:15	Brown	Guinea pig endolymphatic duct with labyrinthitis	daniel.brown@sydney.edu.au
8:30	Pastras	Suppression of the Vestibular Short Latency Evoked Potential with Electrical Stimulation of the Central Vestibular System	cpas8047@uni.sydney.edu.au
8:45	Poppi	Calcium in balance: GCaMP imaging in the crista ampullaris	Lauren.Poppi@uon.edu.au
9:00	Lim	Mini ear organoids - how do they compare with human vestibular hair cells?	rebecca.lim@newcastle.edu.au
9:15	Khan	The role of otoliths in VOR adaptation: Otop1 mouse model.	s.khan@neura.edu.au
9:30	Wellings	lateral vestibular nucleus in Parkinson's disease	Tom.Wellings@hnehealth.nsw.gov.au
9:45 BREAK			
Chair	Colebatch		
10:15	Curthoys	Utricular responses to bone conducted vibration	ianc@psych.usyd.edu.au
10:30	Colebatch	Location and phase effects of midline BC stimuli on ocular and cervical VEMPs	j.colebatch@unsw.edu.au
10:45	Rosengren	Vestibular projections to the splenius capitis neck muscles in human	sallyrosengren@hotmail.com
11:00	Taylor	Improving the Specificity of VEMP testing in SSCD: Trial by oVEMP	taylor_rach@yahoo.co.uk
11:15	Bradley	Comparison of static and dynamic tests of otolith function	bradleyjustine@gmail.com
11:30	Todd	A new measure of vestibulo-cerebellar function?: the vestibulo-cerebellar evoked potential (VCEP)	neil.p.todd@manchester.ac.uk
11:45	Chiarovano	Scientist in the clinic.	elodie.chiarovano@sydney.edu.au
12:00	MacDougall	User Discovery for Medical Device Translation	hamish@psych.usyd.edu.au
12:15 LUNCH & VR LAB VISIT			
Chair	Waterston		
2:15	STRUPP	Peripheral vestibular disorders: a brief update	Michael.Strupp@med.uni-muenchen.de
3:15	Steenerson	"I Can't Place My Feet": A Case Presentation	ksteenerson@gmail.com
3:30	Akdal	Vestibular migraine	gulden.akdal@deu.edu.tr
3:45	Welgampola	Positional vertigo in vestibular migraine	m.welgampola@gmail.com
4:00 BREAK			
Chair	Welgampola		
4:30	Iwasaki	Frequency characteristics of postural sway in bilateral vestibulopathy and persistent postural and perceptual dizziness	iwashin-ky@umin.ac.jp
4:45	Mossman	Personality characteristics of patients with persistent perceptual postural dizziness; a comparison with BPPV	stuart@mossman.net.nz
5:00	Fujimoto	Noisy galvanic vestibular stimulation induces a sustained improvement in body balance in patients with bilateral vestibulopathy	cfujimoto-ky@umin.ac.jp
5:15	Rinaudo	VOR rehabilitation RCT using StableEyes: Preliminary data	c.rinaudo@neura.edu.au
5:30	AGM		
6:00	PARTY		
SATURDAY 4 th Nov: Kerry Packer Lecture Theatre, RPAH			
Chair	Szmulewicz		
8:30	STRUPP	Cerebellar dizziness and cerebellar ocular motor disorders: diagnosis and current pharmacotherapy	Michael.Strupp@med.uni-muenchen.de
9:15	Smulewicz	Measuring ataxia	dsz@me.com
9:30	Tsang	Subacute progressive ataxia	Benjamin.Tsang@health.qld.gov.au
9:45	Power	Central conditions mimicking Benign Paroxysmal Positional Vertigo (BPPV)	laura_power@live.com.au
10:00	Cremer	Fabricating vertigo	northshorevertigo@bigpond.com
10:15 BREAK			
Chair	McGarvie		
10:45	McGarvie	sHIMP vs HIMP	leighm@icn.usyd.edu.au
11:00	Yamsuan	The Effects of Habitual Spectacle Use and Visual Acuity on the Video Head Impulse Test	kyam125@aucklanduni.ac.nz
11:15	Hannigan	The dissociation of vHIT and Calorics, how it works in the clinic.	imeldahannigan@hotmail.com
11:30	Aw	Vestibulo-Ocular Reflex deficits with Medial Longitudinal Fasciculus Lesions	sweea@icn.usyd.edu.au
11:45	Hoskison	Canal and otolith function before and after cochlear implantation	emmahoskison@hotmail.com
12:00	Welgampola	"Of shoes and shimps and ceiling wax" - SHIMPs and HIMPs in dizzy clinic	m.welgampola@gmail.com
12:15	Pogson	"Fiat Lux" Let there be light - Head Impulse Tests in the light and dark	jacob.pogson@sydney.edu.au
12:30 LUNCH			
Chair	Chen		
1:30	Chen	Spontaneous nystagmus characteristics in acute vestibular syndrome: vestibular neuritis and pontine-cerebellar stroke	luke@sydneyneurology.com.au
1:45	Choi	Acute transient isolated vertigo in posterior circulation ischaemia	kdchoi@pusan.ac.kr
2:00	Young	Selective lateral semicircular canal paresis during an attack of spontaneous vertigo in VM and MD	allison.young.audiologist@gmail.com
2:15	Gerraty	Transient vertigo preceding vestibular neuritis	rgerraty@mac.com
2:30	Reid	Capturing vertigo in the Emergency Room	nicoler@icn.usyd.edu.au
2:45	Katz	The diagnostic accuracy of dizziness presentations to a specialised eye and ear Emergency Department	meravleahkatz@gmail.com
3:00 BREAK			
Chair	Pohl		
3:30	Vartanyan	Garden Terror - Case series of twenty-eight serious ear injuries caused by Yucca plants	maria.s.vartanyan@gmail.com
3:45	Reynolds	A puff of hot air	parpamslot@gmail.com
4:00	Watson	Sleep and the vestibular system	watson.bneuro@gmail.com
4:15	McNeill	Many ears disease - audiology	celenemcneill@gmail.com
4:30	Rahmann	Vestibular dysfunction is poorly identified in people admitted to sub-acute rehabilitation following an injurious fall.	Ann.Rahmann@acu.edu.au
4:45	Hornibrook	Scary and Difficult Cases: A Time for Reflection	jeremy@jhornibrook.com
5:00 CLOSE			

Version: 2-Nov-2017 09:00

POSTERS

Williams	Treatment for tinnitus brian.williams.ent@gmail.com
-----------------	--

SUNDAY 5th Nov: TRAINING DAY

SUNDAY Scot Skirving Lecture Theatre		
8:00	Curthoys	Anatomy
8:30	Curthoys	Physiology
9:00	Chen	Clinical evaluation
9:30	McGarvie	vHIT
10:00 BREAK		
10:30	Taylor	Audio
11:00	Rosengren	VEMP
12:00	Welgampola	BPV
12:30	Reynolds	Physio
1:00 CLOSE		

If you get totally lost: Call Michael Halmagyi on:	0407 287 952
